To,  
President  
Karnataka State Dental Council Bangalore,

Subject: Application for CDE Points – Face Craft Orthognathic Surgery Workshop

Dear Sir,

We would like to apply for CDE points for our upcoming workshop, “Face Craft: Orthognathic Surgery,” scheduled to be held at Bhagwan Mahaveer Jain Hospital, Bengaluru, from 26th February to 1st March.

The workshop is part of a structured training program, the first module of which consisted of a series of online lectures conducted by eminent international faculty. The current four-day, in-person module will include comprehensive case discussions, surgical video demonstrations, and hands-on training on anatomical models, providing participants with a thorough academic and practical learning experience.

We have attached the detailed lecture series and workshop brochure for your reference.

We look forward to your kind consideration and the allocation of CDE points for this academic initiative.

Thank you for your support.

Warm regards,

**Dr Pritham Shetty**

## ORTHOGNATHIC WORKSHOP

### FaceCraft Course includes:

- Engaging online modules to prepare you for an immersive in-person experience.
- Dynamic, interactive group lectures focused on collaborative learning and real-world case discussion.
- Cutting-edge Virtual Surgical Planning (VSP) sessions, guiding you from digital workflows through surgical execution.
- Anatomical model osteotomies—practice procedures in a controlled, supportive environment to build clinical confidence.
- Unique opportunity for cadaveric osteotomies—an authentic surgical experience for enhanced anatomical understanding.
- Comprehensive recorded surgery demonstrations, providing stepwise exposure to operative intricacies.
- Dedicated mentorship for ongoing case planning and professional development, ensuring concepts are reinforced and translated back to the clinical setting.
